

REDEVELOPMENT OF
B A L E S W A R
RAILWAY STATION

1. Main Station building

2. FOB towards Howrah side

3. FOB towards Bhadrak side

REVITALIZING OLD ROOTS

Inspired by **traditional Baleswar architecture**, the station's design integrates elements like arches, ornate facades, and locally sourced materials that reflect the city's cultural heritage.

The Station facade features wheels of the Konark Temple, while the Shikhar draws inspiration from Jaganath Puri. The facade showcases Saura paintings of the Saura tribals, adding a unique cultural touch.
